SUMMARY

Product designer with 15+ years and a consistent track record of outsized impact at scale. At Booking.com, shipped experiences that added 1,300+ bookings per day and grew a B2B platform from 10,000 to 1.6 million users. At Anima, designed the #1 Figma plugin in the development category with over 1 million installs. Via Toptal, delivered a 10x uplift in weekly conversions on a full eCommerce redesign.

Operates across the full design stack: strategy, research, execution, design systems, and mentorship. Brings high autonomy and strong cross-functional influence to complex, ambiguous product challenges. Currently applying this depth to AI-powered healthcare products at Clipboard Health.

EXPERIENCE

Clipboard Health • San Francisco • Remote

Jul 2025 – Present

Senior Product Designer

- Leading end-to-end design of two AI-powered applications improving operational efficiency and caregiver experience across a healthcare staffing platform serving thousands of facilities.
- Designed conversational and predictive interfaces leveraging generative AI to automate workflows and eliminate manual overhead for finance and support teams, accelerating design-to-delivery cycles by 30%+.
- Partnered with Product and Engineering to frame AI-driven solutions within healthcare regulatory constraints, shaping feature scope and ensuring design decisions aligned with key business outcomes.

Lead Product Designer

- Selected into the top 3% of the Toptal elite freelance network. Operated as the sole design lead across high-stakes engagements simultaneously, managing client strategy and delivery independently.
- Led 0-to-1 design for a workplace AI data intelligence startup: defined information architecture, designed 300+ screens, and built a scalable component library that became the foundation for the product's ongoing development.
- Delivered a full eCommerce redesign for a speakers booking platform, applying CRO principles and redesigning the booking funnel from the ground up, resulting in a 10x increase in weekly inquiries.

Anima • Tel Aviv • Remote

Apr 2022 – Mar 2023

Senior Product Designer

- Designed the #1 Figma plugin in the development category, enabling 1M+ designers and developers to generate production-ready front-end code directly from design files.
- Drove measurable retention improvements among paying users by synthesizing qualitative and quantitative data into design hypotheses, then validating through rapid prototyping and iterative releases.

- Redesigned the plugin UI and companion web app while building and maintaining the design system, establishing a shared design language between design and engineering teams.
